Messes. Henry P. Wilson & Co.—My wife is now using your Regenerator for the hair, and pronounces it far superior to anything she ever used for the hair. It is easily applied does not soil in the least—has no disagreeable odor, increases the growth of hair, prevents it falling off, and often cures the headache. I forward you this certificate unsolicited, because I think an article that will do what your Hair Regenerator will, should be widely known. I think it is the best article for the hair now in use. \*\*Respectfully, &c...\* e. Respectfully, &c., Rev. JACOB STEVENS, Newburyport, Ms.

MESSES, HENRY P. WILSON & Co.: I have no hesitancy in saying, in my opinion, Mrs. Wilson's Hair Regenera-tor and Hair Dressing are the best hair preparations now in use. I shall continue to use them with pleasure. Rev. H. H. HARTWELL, Lawrence, Mass.

Massus, Hanry P. Wilson & Co.: I have used your Hair Regenerator and Hair Dressing, and have received great benefit from them. I deem the articles worthy of high-commendation, and cheerfully recommend them to all who want to restore gray hair to its original color, or to any who are troubled with dandruff, or a disagreeable lighting of the head or home. g of the head, or humors, or to those whose hair is falling from the head.

REV. G. W. H. CLARK, Great Falls, N. H.

Massas Hanny P. Witson & Co.; I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard articles of all hair preparations. I have, in many instances, known them to restore the hair where it had fallen off, remove desired, restore the hair to its original color, cure entirely the most painful headaches—and in color, cure entirely the most painful headaches—and in some instances most serious humors Personally, I have been a sharer in several of these benefits. ## MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING.

Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 cts, per bottle, and for dressing the hair of any person, young or old, there is not its count in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a place on every lady's toilet table.

Use the Regenerator before retiring at night, and in the morning apply a little of the Dressing, and your hair will be even more lifelike in color and beauty. Use nothing on your hair but these preparations, and use these according to directions, and we warrant you a good healthy head of hair.

TEXE ONLY DISCOVERY WORTHY OF ANY CONFIDENCE FOR

Restoring THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been torced to leave the field to its resistics sway. Bead the following:

Prof O. J. Wood & Co. Grats: The letter I wrote you in 1826, concerning your valuable that it Restorative, and which you have jublished in this vicinity and elsewhere, his given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my habitation and vame, as stated in 1 communication; second, is it true of all therein contained;

of my habitation and usine, as stated in a communication; second, is it true of all therein contained; third does my hair still continue to be in good order and or natural color? To all I can and will arswer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft thrifty and the only cause why it is not generally true is that the substance is wested off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the whisters, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as we las this, it has no doubt been basely mitated and been used, not only without any good furto absolute injury. I have not used any creamy pair is as good as ever, and hundreds have extincted. basely ministed and been used, not only without any good butto absolure injury. I have not used any of the festorative of any secount for some months, and ye, my hair is as good as ever, and hundreds have extimined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to preve this fact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles last Summer for which I am very grateful: I gave it to my triengs and thereby induced them to try it, many were skepticle utili after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many. I fear without authority from you. A pure article will insure success and I believe where good effects, do not follow the failure is caused by the impure article which curres the iniventor of the good. I deem it my duty as heretofore to keep you apprised of continued flect on my hair, as I assure all who enquire of my unshaken opinion of its valuable results. I remain, dear sir, yous.

WOOD or COAL.

Ahead of all Competition! \$463 of them manufactured last year-more than double the number of any other first class stove in one year, in the United States.

THEY contain all the improvements which are in all the first class stoves, and the advantages and improvements over other stoves are in part as follows:

1st. The arrangement for broiling on the front hearth, —an improvement overlooked in other first class stoves. It has also the same arrangement for broiling on top.

2d. A thorough ventilation of the Oven.

3d. Introducing hot air draught to the first chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a matter much and justly complained of in other Stoves.

matter much and justly complained of in other Stoves,
4th. An important improvement in the application of
the damper, which throws the heat around the oven.
5th. Much greater weight, consequently heavier plates,
and more durable as well as handsomer castings.

6th. A draft damper at each end of the fire box, so that the fire is equalized, and one gridle will heat as quick as the other, also heating the oven in half the time.

7th. Fire back protected by somp-stone, so it cannot burn out. burn out.

It is addition to the above improvements, it has all that is combined in other first class Stoves, viz —Hot water Reservoir. Warming Closet, Reaster in front, Baker on tep. Doors fixed with best Russia front, &c. &c. Further, this stove is warranted to do the work with as little furlas any other stove in the market, and in a superior manner.
